

## HB 680

### PUSH-BUTTON ACTIVATED EDGE PULL

The HB 680 Push Button Activated Edge Pull for pocket doors has been designed to match the 170mm (6.69") height of the HB 660 and HB 660/35 Flush Pulls. Its slim faceplate, smooth push-button release and narrow 49mm (1.93") body depth make it suitable for sliding timber passage doors, including wide stile timber and aluminum pocket doors.

When used with the HB 660 Flush Pull, a minimum door thickness of 1-1/2" is required. For 1-3/8" thick doors, please specify the HB 660/35.

Each Edge Pull ships with all fixings. Flush Pulls sold separately.
